GRADUATED IN JAN 2018

ABOUT ME

I have a clear, logical mind with a practical approach to problem-solving and a drive to see things through to completion. I have strong technical skills as well as excellent interpersonal skills, that enabling me to interact with others. I am eager to be challenged in order to grow and further improve my IT skills. My greatest passion in life is using my technical skills to benefit other people and organizations. My experience is biased towards JavaScript and its related frameworks. I am however open to tackling new challenges and working with new technologies including new languages, tools and frameworks.
